FAQ's

	Units	DL01- W
Dimensions (W x D x H)	mm	85 x 85 x 45 (130 with bracket)
Installation orientation	-	Ceiling mounted
Minimum Ceiling Void	mm	140
Installation diameter	mm	75
Gross Weight	gr	210
Is a driver required?	-	No
Is the lamp Included?	-	No*
Max lamp length	mm	58
Is the lamp Dimmable?		Lamp Dependent
Do downlights come with a portable button?		No, only the mirror comes with a portable button
Is the downlight fire rated?		No
Do the products work over Wi-Fi only?	-	Products need Wi-Fi for the initial setup and to control using the WIZ app or smart speakers. Switches are connected WIZ products via Bluetooth. If the Wi-Fi goes down then the products should still work via the local switches. After setup, the device you are using to control the lights does not need to be on the same Wi-Fi network. This means WIZ products can be controlled from your device with an internet connection from anywhere in the world.
How can the products work with extractor fans or other ventilation?		We recommend the extractor fan in the bathroom is either connected onto a traditional switch or that customers install an extractor fan with a motion/humidity sensor (Humidistat).

*If smart version is ordered (suffix -WIZ) a smart bulb will be included.

LINKS FOR MORE INFORMATION

Question	Answer	Link
Where can I find more information about the app specific issues?	The link to the right will take you to the Wiz Connected FAQ website with a wide range of helpful articles.	https://www.wizconnected.com/en-gb/support
How do I pair a switch (also known as a smart button)?	Follow instructions in the link.	https://wizconnected.helpshift.com/hc/en/7-wiz-v2/faq/639-adding-a-smart-button-in-a-home
Are there any limitations on the type of Wifi network WIZ products work with?	This device requires a 2.4 GHz Wi-Fi connection and is not compatible with 5 GHz networks. Most residential routers support both frequencies. Additional limitations are detailed in the link to the right.	https://wizconnected.helpshift.com/hc/en/3-wiz-legacy/faq/146-what-type-of-networks-does-wiz-support/
Can more than one person in a household control WIZ products in the app?	Yes, multiple users can control the same products from their own WIZ app. Within the app you can setup multiple users who can be given different levels of control.	https://wizconnected.helpshift.com/hc/en/3-wiz-legacy/section/53-invitations-sharing-your-lights-1629109807/
What are the setup requirements for Spacesense and what setup will work for my room?	Wiz state that users will require at least 2 devices installed 2 metres apart for Spacesense to work. Spacesense is easy to set up but work slightly differently for each room setup. It may take a small amount of trial and error to find the right sensitivity for a particular room. More info can be found in the link to the right.	https://www.wizconnected.com/en-gb/explore-wiz/spacesense
What are Rhythms and Circadian Rhythms? How do they work?	A good overview can be found on the Wiz support pages. Follow the link to the right.	https://wizconnected.helpshift.com/hc/en/3-wiz-legacy/section/58-rhythms
