FABER MIRRORS

BOX CONTENTS:

FABER Mirror | Instructions booklet | Fixing Kit (2 Wall Brackets and Fixing Screws)

| FAQ's | FBM4090A | FBM4090P | FBM5090P | FBM6080 | FBM1045 | FBM1250 | FBM60C | FBM80C | FBM100C | |
|---|--|----------|-------------------------------|---------|---------|--|--------|--------|---------|--|
| Can the mirror be hung landscape? | N | Y | | | Υ | Υ | NA | | | |
| Does this mirror have frosting? | No | | | | | | | | | |
| What is the thickness of the mirror glass? | 4mm | | | | | | | | | |
| Where is the switch sensor located? | Bottom Centre | | m Centre (Po (Reversible L | , | , | eversible Portrait) re (Landscape) Bottom Cer | | | re e | |
| Is this mirror IP44 Rated? | Yes – Suitable for use in bathroom zone 2 | | | | | | | | | |
| Can the LED lighting be replaced? | No | | | | | | | | | |
| Can the switch sensor be replaced? | Yes | | | | | | | | | |
| What size fuse should I use? | Seek the advice of an electrician | | | | | | | | | |
| How do I turn on the demister pad? | Press the right touch sensor with the demister icon, touch sensor light will turn on. Demister automatically turns off after 30 minutes. See user manual for more information. | | | | | | | | | |
| Where is the demister pad located? | Please refer to technical drawings for demister pad location. Note that FBM1250 and FBM1045 have two demister pads either side of the sensor. | | | | | | | | | |
| Are illuminated cabinets/mirrors supplied with mains cable? | All illuminated cabinets/mirrors are supplied with a removeable 500mm mains cable. There is ample storage for excess cable in the back of the unit. | | | | | | | | | |
| Why does my mirror switch ON automatically? | The mirror contains a Microwave motion sensor which detects your presence. The function comes activated by default but the sensitivity can be adjusted or the function deactivated completely if preferred. Scan the QR code for more information: | | | | | | | | | |
| How close do I need to get to activate the motion sensor? | The mirror will activate when movement is detected at 1.5m by default. Sensitivity can be adjusted to reduce the detection range. See user manual for more information. | | | | | | | | | |
| How long does it take for the mirror to automatically switch OFF? | The mirror will switch OFF automatically after 10min of no movement detection within the mirror range. To change delay time please follow instructions is user manual. | | | | | | | | | |
| Why doesn't the motion sensor function work when I have turned off the mirror manually? | If the mirror light is switched off manually the motion sensor function won't be active until 1min after. | | | | | | | | | |

Please note:

- Dimensions are subject to change. Customers are advised to measure actual product dimensions before commencing installation.
- Fixing point dimensions are for guidance only/the positions of wall fixing must be checked when product is received.
- We recommend to position the wall brackets at the measured distance minus 5mm to give some tolerance on hanging the mirror.
