## SYSTEM SOLID SURFACE WORKTOP

What's in the box: 1x SYS5SSWKIT, SYS6SSWKIT, SYS8SSWKIT, SYS5SSBMKIT, SYS6SSBMKIT, SYS8SSBMKIT

| Unit | D1  | D2  |
|------|-----|-----|
| 500  | 496 | 413 |
| 600  | 594 | 413 |
| 800  | 794 | 413 |

### Materials

Worktop: Solid Surface

\*\*Dimensions are subject to change, customers are advised to measure actual product before commencing installation.

### Important note

Support braces are included with the worktop.

These must be cut to length before installation.

| Unit | Recommended brace length |
|------|--------------------------|
| 500  | 444mm                    |
| 600  | 546mm                    |
| 800  | 746mm                    |

Diagrams not to scale  
All dimensions in mm  
Tolerance of +/-5mm

## Solid Surface Information

Has many names including:

- Corian
- LG Hi-macs

A homogenous compound mixture of polyester and aluminium trihydrate (derived from a natural Bauxite ore). This means it is the same material all the way through, so can be cut and sanded back to a perfect finish. Aluminium trihydrate is moulded, vacuum treated and then finished by hand to create a perfectly smooth matt finish which is highly dimensionally accurate. Can be sanded and refinished should any stains occur due to misuse. Can be patch repaired by simply sanding back the affected area.

Material Benefits:

- Point impacts (255g ball dropped from 610mm)
- Stain resistant
- Colourfast
- Temperature resistance

## FAQs

Q: Are the worktops pre-cut for tap and waste hole?

A: No, they are plain and should be cut according to basin / tap selected. Instruction supplied with worktops to detail

Q: Are the worktops reversible?

A: No, the top (main finish) is polished. Underside is unfinished.

Q: Can I use these worktops on other ranges?

A: Our worktops are designed to be a perfect fit, however it is possible to cut down and repolish edges if required.

Q: How do I install the support braces?

A: Cut the braces to length and apply them to the unit using the included fixings. More details are shown in the instructions.

Q: How many support braces do I need?

A: For 500, 600 and 800 worktops, 2x support braces are needed for one worktop.
