Diagrams not to scale. All dimensions in mm (tolerance of +/-5mm)

FAQs

- What connections do the flexible hoses have?** This tap uses flexible hoses with 1/2" BSP captive nut connections.
- What size Pipework do i need?** It is recommended to use 15mm with G1/2" plumbing fittings.
- What is the recommended operating pressure?** 0.5 BAR.
- How do I care for the finish on this tap?** We recommend using only a damp cloth and warm water. Do NOT use abrasive cleaning products or cleaning chemicals as this may damage the surface of the product.
- What is the raw material for this product?** This product is made from 316 grade stainless steel.
- Is the supplied click waste suitable for use with a vessel basin?** Yes, the waste can be used with vessel basins with and without an integrated overflow.
