\*Dimensions are subject to change, customers are advised to measure actual product before commencing installation.

# FAQs

#### Q - What Trap is recommended for use with this bathtub?

A - We recommend using a space saver bath trap with this bath tub. For other bath traps a void below the floor level may be required. The trap will require a 1 1/2" BSP connection to connect with the waste.

#### Q - Is this bathtub supplied with a waste?

A - No, bathtub slotted click wastes can be purchased separately from the Roper Rhodes brochure in a range of finishes.

# Q - What colour is the overflow trim?

A - The bathtub is supplied with a neutral overflow slot.

#### Q - Do I need to purchase a bath tub overflow kit for this bath tub?

A - No, the bathtub is fitted with an integrated overflow channel, the only additional purchase required is a slotted click waste.

#### Q - What filling methods are recommended for this bathtub

A - We recommend using a Freestanding Bath Filler/Bath Shower Mixer or a Wall Mounted Bath Filler

### Q - How heavy is this bathtub?

A - The unfilled weight is 39KG, the filled weight is 289KG. A structural engineer should be consulted to ensure that your floor is strong enough to support the weight of a filled bathtub.

# Q - What material is used to make this bathtub?

A - This bathtub is made from a double skin of 3.2mm acrylic, each skin is reinforced by a double layer of insulating fibreglass and resin. The bottom of the bath tub is reinforced using a 6mm thick MDF base board.

#### Q - Are the feet adjustable?

A - Yes, the feet are adjustable by a range of over 100mm. The feet are also installed with a ball joint to aid with levelling the bathtub.

# Q - What is the overall capacity of the bathtub?

A - 250 Litres.

All of our bath tubs conform with BS EN 14156 Class 1 & Class 2
