### FAQs

**Q - What Trap is recommended for use with this bathtub?**

A - We recommend using an exposed bath trap with this bath tub. The trap will require a 1 1/2" BSP connection to connect with the waste. A range of finishes are available in the Roper Rhodes bathing collection

**Q - Is this bathtub supplied with a waste?**

A - No, bathtub click and chain wastes can be purchased separately from the Roper Rhodes brochure in a range of finishes.

**Q - What colour is the overflow trim?**

A - The bathtub is supplied with a pre drilled, neutral overflow hole.

**Q - Do I need to purchase a bath tub overflow kit for this bath tub?**

A - Yes, an overflow and waste kit can be purchased from the Roper Rhodes bathing collection in a range of finishes.

**Q - What filling methods are recommended for this bathtub**

A - We recommend using a deckmounted bath filler.

**Q - Is this bathtub supplied with feet?**

A - No, traditional feet can be purchased separately from the Roper Rhodes brochure in a range of finishes.

**Q - How heavy is this bathtub?**

A - The unfilled weight is 34KG, the filled weight is 226KG. A structural engineer should be consulted to ensure that your floor is strong enough to support the weight of a filled bathtub.

**Q - What material is used to make this bathtub?**

A - This bathtub is made from a double skin of 3.2mm acrylic, each skin is reinforced by a double layer of insulating fibreglass and resin. The bottom of the bath tub is reinforced using a 6mm thick MDF base board.

**Q - Are the feet adjustable?**

A - Yes, the feet are adjustable by a range of over 30mm.

**Q - What is the overall capacity of the bathtub?**

A - 192 Litres.

**Q - Are the tap holes pre drilled?**

A - Our bath tubs are all supplied with undrilled tap decks

All of our bath tubs conform with BS EN 14156 Class 1 & Class 2
